Relevant Experience

Tutoring Services

HTML5
CSS3
Vanilla JavaScript
React

Collaborated with students to complete assignments, identify skills and improve weaknessess.

Used positive reinforcement, repetition and review to help students master challenging material.

Arise Design Agency

NEXT.js
Prismic CMS
JavaScript
React

Projects were built in React/Next.js and leverage Prismic.io as a headless CMS. The scope of work would include updating pages, layouts and some back end functionality.
